Vsebina:

Seminar je neposredno podrejen cilju končne priprave doktorske disertacije. Temelji na predstavljanju, zagovarjanju in kritičnem reflektirjanju osnutkov disertacij.

Študent(ka) k seminarju pristopi z vsaj delnim prvim osnutkom doktorske disertacije, ki mora vključevati najmanj:

- jasno formulirano raziskovalno vprašanje in hipoteze,
- predstavitev uporabljenih raziskovalnih metod,
- vsaj preliminarne raziskovalne rezultate,
- interpretacijo raziskovalnih rezultatov v luči hipotez,
- utemeljitev inovativnosti doktorske disertacije kot relevantnega prispevka k znanstvenemu znanju.

Izpolnjeni osnutek mora z danimi relevantnimi pripombami in sugestijami služiti kot zadostna podlaga za pripravo končnega besedila doktorske disertacije. Če mentor oceni, da tudi izpopolnjeni osnutek besedila tega še ne omogoča, mora študent(ka) seminar kot celoto opravljati ponovno.

Content (Syllabus outline):

The seminar is directly related to the objective of the final preparation of the doctoral dissertation. It is based on representation, advocacy and critical reflection on the draft theses.

The student approaches to the seminar with first draft of the doctoral dissertation which must include at least:

- clearly formulated research question and hypothesis,
- a presentation of the research methods,
- preliminary research results,
- interpretation of the research results,
- support of innovative doctoral dissertation as a relevant contribution to scientific knowledge.

The completed draft must serve as a sufficient basis for the preparation of the final text of the doctoral dissertation. If the supervisor considers that the improved draft text does not provide this, the student has to repeat the seminar.
