- Teoretično in praktično poznavanje etnografskega raziskovanja, različnih vrst intervjujev (narativnih, skupinskih, strukturiranih ipd.), semiotične analize ter podob v gibanju in medijske analize.
- Raziskovalni koraki, vezani na empirično fazo raziskovanja, ki vodijo do interpretacije kvalitativno zbranega gradiva ter postavitve paradigmatskega modela.

- The role of the researcher in the research process that has become within the qualitative paradigm even more evident and thus encourages self-reflection and criticism.
- Knows and uses basic methods and techniques of qualitative research.
- Theoretical and practical knowledge of ethnographic research, different types of interviews (narrative, consolidated, structured, etc..) and semiotic analysis of images in motion and media analysis.
- The considered research steps accord to the empirical research phase, leading to a qualitative interpretation of the collected material and defining a paradigmatic model.
